## *Hair Health*

### Phytophanère Vitamins

This Phyto brand supplement aides in the growth of hair, nails, and lashes using essential oils, acids, nutrients, and minerals. We've seen incredible results from this product.

### Sensorielle from Lierac Paris

This multi-use oil can be directly applied to the hair, face, and body. It has a wonderful lightweight texture that readily absorbs without a greasy finish. It is hydrating, smoothing, rejuvenating, and nourishing.

For Studio Booth, the first signs of spring indicate that wedding season has begun! Providing thorough consultations and customizing elegant designs are just two of the ways that we ensure the happiness of each of our brides and bridal parties.

Soft textured updos and side ponytails continue to be popular for brides who are most comfortable wearing their hair long. Wet setting hair with rollers, pin curls, or finger waves creates lovely, romantic styles. For brides desiring instant long hair, we love to add volume or texture with hairpieces. Ornate headbands, fresh flowers, and feathers are wonderful embellishments for a chic finishing touch.

Contact our bridal coordinator, Justi, to schedule your consultations and bridal party appointments by calling the Studio Booth front desk or emailing [concierge@studio-booth.com](mailto:concierge@studio-booth.com).

Nearly all guests desire hair that is healthy, smooth, and shiny. With the **Cadiveu Hair Smoothing Treatment**, look no further than Studio Booth to help you achieve this coveted look. The treatment provides control from humidity, and eliminates the need to constantly blow dry and style your summer locks.

The natural raw ingredients are derived from cocoa, panthenol, and keratin, all of which nourish and moisturize hair, removing frizz and leaving locks smooth and straight.

## \* THE LATEST TRENDS \*

VOL. 1 ISSUE 1

*Versatile and romantic, braids are hot this season! From the runways to the red carpets and even wedding styles, braids can be incorporated into any look. Two of our favorites right now are large plaits and fishtails (pictured on left).*

### **Men's Styling - "The Faux Hawk"**

**The retro faux hawk is daring, adaptive, and a must have this summer for any guy.**

**The look is achieved by implementing a short clipper cut on the sides of the hair, leaving the top and back from 1" to 5" long. The style can be swept back or styled to flop over one eye. Use *Sebastian Molding Mud* for a soft finish or *Sebastian Liquid Steel* for a slick, wet look.**

The arrival of spring means it's time to brighten and freshen up all hair colors! We love golden hues for all blondes and red heads this season, and for the truly daring: Pastels! Talk to your stylist about violets, pinks, blues, and even peachy tones.

## Ask John

"I'm having friends over on Friday... what should I make?"

My advice is to keep it simple, fun, and of course, healthy. After all, bikini season is just around the corner. My friend, Tania, is from Guatemala and makes the most amazing ceviche. A very special "Thank You" to my amazing and beautiful friend for being so kind to share her family recipe with us.

- Cook the shrimp in boiling salt water for 2-3 mins. Set aside.
- Chop tomatoes, onions and cilantro (stems and leaves).
- Cut cooled shrimp into 3-4 pieces each.
- Mix shrimp with chopped vegetables and cilantro, add lime juice, orange juice, salt, pepper and Worcestershire sauce.
- Cover loosely and refrigerate it for 3-4 hours.
- Mix several times while in the refrigerator. Correct salt and pepper if needed.
- Serve with Saltines, hot sauce, little squares of avocado and a cold beer (one of my favorites is "Cerveza Gallo", a Guatemalan beer, but a Corona will do)

Enjoy!

### Ingredients:

- 1 pound of medium sized shrimp
- 4 plum tomatoes
- 1 small white onion
- 10-20 stems with leafs of cilantro
- The juice of 3 limes
- Salt
- Pepper
- 1 teaspoon of Worcestershire sauce
- 1 tablespoon of orange juice
